(b) A physician applying under (a) of this section shall pay the required fee and shall meet the requirements of AS 08.64.279 and the requirements of either AS 08.64.200 or 08.64.225. In addition, the physician shall submit

evidence of holding a license to practice medicine in a state or territory of the United States or in a province or territory of Canada.

(e) A permit issued under this section is initially valid for 90 consecutive calendar days. Upon request by a permittee, a permit issued under this section shall be extended for 60 calendar days by the board or its designee if, before the expiration of the initial 90-day permit, the permittee submits to the department a completed application form and the fee required for licensure under this chapter, except that the board may refuse to grant a request for an extension for the same reasons the board may refuse to grant a license under AS 08.64.240. Permits and extensions of permits issued to an individual under this section are not valid for more than 240 calendar days during any consecutive 24 months.

(f) Notwithstanding (e) of this section, a permit issued under this section may be extended by the board or its designee for a time period that exceeds the limit established in (e) of this section if the board or its designee determines that the extension is necessary in order to provide essential medical services for the protection of public health and safety and the board has received a

- (1) clearance report from the National Practitioner Data Bank;
- (2) physician profile from the American Medical Association or the American Osteopathic Association;
- (3) clearance report from the United States Drug Enforcement Administration; and

Sec. 08.64.276. Retired status license. (a) On retiring from practice and payment of an appropriate one-time fee, a licensee in good standing with the board may apply for the conversion of an active or inactive license to a retired status license. A person holding a retired status license may not practice medicine, osteopathy, or podiatry in the state. A retired status license is valid for the life of the license holder and does not require renewal. A person holding a retired status license is exempt from AS 08.64.312.

(b) A person with a retired status license may apply for active licensure. Before issuing an active license under this subsection, the board may require the applicant to meet reasonable criteria as determined under regulations of the board, that may include submission of continuing medical education credits, reexamination requirements, physical and psychiatric examination requirements, an interview with the entire board, and review of information in the national data bank of the National Federation of State Medical Boards.

Sec. 08.64.279. Interview for permits. An applicant for an intern permit, a resident permit, or a temporary permit for locum tenens practice may be interviewed in person by the board, a member of the board, the executive secretary of the board, or a person designated for that purpose by the board.

Sec. 08.64.312. Continuing education requirements. (a) The board shall promote a high degree of competence in the practice of medicine by requiring every physician licensed in the state to fulfill continuing education requirements.

(b) Before a license may be renewed the licensee shall submit evidence to the board or its designee that continuing education requirements prescribed by regulations adopted by the board have been met.

(c) The board or its designee may exempt a physician from the requirements of (b) of this section upon an application by the physician giving evidence satisfactory to the board or its designee that the physician is unable to comply with the requirements because of extenuating circumstances. However, a person may not be exempted from more than 15 hours of continuing education in a five-year period.

Sec. 08.64.313. Inactive license. A licensee who does not practice in the state may hold an inactive license. A person, who practices in the state, however infrequently, shall hold an active license.

Sec. 08.64.315. Fees. The department shall set fees under AS 08.01.065 for each of the following:

- (1) application;
- (2) license by examination;
- (3) license by endorsement or waiver of examination;
- (4) temporary permit;
- (5) locum tenens permit;
- (6) license renewal, active;
- (7) license renewal, inactive;
- (8) license by reexamination.

Sec. 08.64.326. Grounds for imposition of disciplinary sanctions. (a) The board may impose a sanction if the board finds after a hearing that a licensee

- (1) secured a license through deceit, fraud, or intentional misrepresentation;

- (2) engaged in deceit, fraud, or intentional misrepresentation while providing professional services or engaging in professional activities;
 - (3) advertised professional services in a false or misleading manner;
 - (4) has been convicted, including conviction based on a guilty plea or plea of nolo contendere, of
 - (A) a class A or unclassified felony or a crime in another jurisdiction with elements similar to a class A or unclassified felony in this jurisdiction;
 - (B) a class B or class C felony or a crime in another jurisdiction with elements similar to a class B or class C felony in this jurisdiction if the felony or other crime is substantially related to the qualifications, functions, or duties of the licensee; or
 - (C) a crime involving the unlawful procurement, sale, prescription, or dispensing of drugs;
 - (5) has procured, sold, prescribed, or dispensed drugs in violation of a law regardless of whether there has been a criminal action;
 - (6) intentionally or negligently permitted the performance of patient care by persons under the licensee's supervision that does not conform to minimum professional standards even if the patient was not injured;
 - (7) failed to comply with this chapter, a regulation adopted under this chapter, or an order of the board;
 - (8) has demonstrated
 - (A) professional incompetence, gross negligence or repeated negligent conduct; the board may not base a finding of professional incompetence solely on the basis that a licensee's practice is unconventional or experimental in the absence of demonstrable physical harm to a patient;
 - (B) addiction to, severe dependency on, or habitual overuse of alcohol or other drugs that impairs the licensee's ability to practice safely;
 - (C) unfitness because of physical or mental disability;
 - (9) engaged in unprofessional conduct, in sexual misconduct, or in lewd or immoral conduct in connection with the delivery of professional services to patients; in this paragraph, "sexual misconduct" includes sexual contact, as defined by the board in regulations adopted under this chapter, or attempted sexual contact with a patient outside the scope of generally accepted methods of examination or treatment of the patient, regardless of the patient's consent or lack of consent, during the term of the physician-patient relationship, as defined by the board in regulations adopted under this chapter, unless the patient was the licensee's spouse at the time of the contact or, immediately preceding the physician-patient relationship, was in a dating, courtship, or engagement relationship with the licensee;
 - (10) has violated AS 18.16.010;
 - (11) has violated any code of ethics adopted by regulation by the board;
 - (12) has denied care or treatment to a patient or person seeking assistance from the physician if the only reason for the denial is the failure or refusal of the patient to agree to arbitrate as provided in AS 09.55.535(a); or
 - (13) has had a license or certificate to practice medicine in another state or territory of the United States, or a province or territory of Canada, denied, suspended, revoked, surrendered while under investigation for an alleged violation, restricted, limited, conditioned, or placed on probation unless the denial, suspension, revocation, or other action was caused by the failure of the licensee to pay fees to that state, territory, or province.
- (b) In a case involving (a)(13) of this section, the final findings of fact, conclusions of law and order of the authority that suspended or revoked a license or certificate constitutes a prima facie case that the license or certificate was suspended or revoked and the grounds under which the suspension or revocation was granted.

Sec. 08.64.331. Disciplinary sanctions. (a) If the board finds that a licensee has committed an act set out in AS 08.64.326(a), the board may

- (1) permanently revoke a license to practice;
 - (2) suspend a license for a determinate period of time;
 - (3) censure a licensee;
 - (4) issue a letter of reprimand;
 - (5) place a licensee on probationary status and require the licensee to
 - (A) report regularly to the board on matters involving the basis of probation;
 - (B) limit practice to those areas prescribed;
 - (C) continue professional education until a satisfactory degree of skill has been attained in those areas determined by the board to need improvement;
 - (6) impose limitations or conditions on the practice of a licensee;
 - (7) impose a civil fine of not more than \$25,000; or
 - (8) impose one or more of the sanctions set out in (1)—(7) of this subsection.
- (b) The board may end the probation of a licensee if it finds that the deficiencies which required this sanction have been remedied.
- (c) The board may summarily suspend a license before final hearing or during the appeals process if the board finds that the licensee poses a clear and immediate danger to the public health and safety if the licensee continues to practice. A person whose license is suspended under this section is entitled to a hearing by the board no later than seven days after the effective date of the order and the person may appeal the suspension after a hearing to a court of competent jurisdiction.

(d) The board may reinstate a license that has been suspended or revoked if the board finds after a hearing that the applicant is able to practice with reasonable skill and safety.

(e) The board may suspend a license upon receipt of a certified copy of evidence that a license to practice medicine in another state or territory of the United States or province of Canada has been suspended or revoked. The suspension remains in effect until a hearing can be held by the board.

(f) The board shall be consistent in the application of disciplinary sanctions. A significant departure from earlier decisions of the board involving similar situations must be explained in findings of fact or orders made by the board.

Sec. 08.64.332. Automatic suspension for mental incompetency or insanity. Notwithstanding AS 44.62, if a person holding a license to practice medicine or osteopathy under this chapter is adjudged mentally incompetent or insane by a final order or adjudication by a court of competent jurisdiction or by voluntary commitment to an institution for the treatment of mental illness, the person's license shall be suspended by the board. The suspension shall continue in effect until the court finds or adjudges that the person has been restored to reason or until a licensed psychiatrist approved by the board determines that the person has been restored to reason.

Sec. 08.64.334. Voluntary surrender. The board, at its discretion, may accept the voluntary surrender of a license. A license may not be returned unless the board determines, under regulations adopted by it, that the licensee is competent to resume practice. However, a license may not be returned to the licensee if the voluntary surrender resulted in the dropping or suspension of civil or criminal charges against the physician.

Sec. 08.64.335. Reports of disciplinary action or license suspension or surrender. The board shall promptly report to the Federation of State Medical Boards for inclusion in the nationwide disciplinary data bank license and permit refusals under AS 08.64.240, actions taken by the board under AS 08.64.331, and license and permit suspensions or surrenders under AS 08.64.332 or 08.64.334.

Sec. 08.64.336. Duty of physicians and hospitals to report. (a) A physician who professionally treats a person licensed to practice medicine or osteopathy in this state for alcoholism or drug addiction, or for mental, emotional, or personality disorders, shall report it to the board if there is probable cause that the person may constitute a danger to the health and welfare of that person's patients or the public if that person continues in practice. The report must state the name and address of the person and the condition found.

(b) A hospital that revokes, suspends, conditions, restricts, or refuses to grant hospital privileges to, or imposes a consultation requirement on, a person licensed to practice medicine or osteopathy in the state shall report to the board the name and address of the person and the reasons for the action within seven working days after the action is taken. A hospital shall also report to the board the name and address of a person licensed to practice medicine or osteopathy in the state if the person resigns hospital staff privileges while under investigation by the hospital or a committee of the hospital and the investigation could result in the revocation, suspension, conditioning, or restricting of, or the refusal to grant, hospital privileges, or in the imposition of a consultation requirement. A report is required under this subsection regardless of whether the person voluntarily agrees to the action taken by the hospital. A report is not required if the sole reason for the action is the person's failure to complete hospital records in a timely manner or to attend staff or committee meetings. In this subsection "consultation requirement" means a restriction placed on a person's existing hospital privileges requiring consultation with a designated physician or group of physicians in order to continue to exercise the hospital privileges.

(c) Upon receipt of a report under (a) or (b) of this section, the board shall investigate the matter and, upon finding that there is reasonable cause to believe that the person who is the subject of the report is a danger to the health or welfare of the public or to the person's patients, the board may appoint a committee of three qualified physicians to examine the person and report its findings to the board. Notwithstanding the provisions of this subsection, the board may summarily suspend a license under AS 08.64.331(c) before appointing an examining committee or before the committee makes or reports its findings.

(d) If the board finds that a person licensed to practice medicine or osteopathy is unable to continue in practice with reasonable safety to the person's patients or to the public, the board shall initiate action to suspend, revoke, limit, or condition the person's license to the extent necessary for the protection of the person's patients and the public.

(e) A physician, hospital, hospital committee, or private professional organization contracted with under AS 08.64.101(6) to identify, confront, evaluate, and treat individuals licensed under this chapter who abuse addictive substances that in good faith submits a report under this section or participates in an investigation or judicial proceeding related to a report submitted under this section is immune from civil liability for the submission or participation.

(f) A physician or hospital may not refuse to submit a report under this section or withhold from the board or its investigators evidence related to an investigation under this section on the grounds that the report or evidence

(1) concerns a matter that was disclosed in the course of a confidential physician-patient or psychotherapist-patient relationship or during a meeting of a hospital medical staff, governing body, or committee that was exempt from the public meeting requirements of AS 44.62.310; or

(2) is required to be kept confidential under AS 18.23.030.

Sec. 08.64.338. Medical and psychiatric exams. For the purposes of an investigation under this chapter, the board may order a person to whom it has issued a license or permit to submit to a medical or psychiatric examination by a physician or other practitioner of the healing arts appointed by the board. An examination shall be at the board's expense. An examination may include the required submission of biological specimens requested by the examining physician or practitioner.

Sec. 08.64.340. Statement of grounds of refusal or revocation of license. If the board refuses to issue a license or revokes a license, it shall file a brief and concise statement of the grounds and reasons for the action in the office of the secretary of the board and in the department. The statement, together with the written decision of the board, shall remain of record in the department.

Sec. 08.64.345. Reports relating to malpractice actions and claims. A person licensed under this chapter shall report in writing to the board concerning the outcome of each medical malpractice claim or civil action in which damages have been or are to be paid by or on behalf of the licensee to the claimant or plaintiff, whether by judgment or under a settlement. This report shall be made within 30 days after resolution of the claim or termination of the civil action.

Sec. 08.64.360. Penalty for practicing without a license or in violation of chapter. Except for a physician assistant, a mobile intensive care paramedic, or a person licensed or authorized under another chapter of this title who engages in practices for which that person is licensed or authorized under that chapter, a person practicing medicine or osteopathy in the state without a valid license or permit is guilty of a class A misdemeanor. Each day of illegal practice is a separate offense.

Sec. 08.64.362. Limitation of liability. An action may not be brought against a person for damages resulting from a report made in good faith to a public agency by the person or participation by the person in an investigation by a public agency or an administrative or judicial proceeding relating to the report if the report relates to a person licensed under this chapter.

(b) A hospital or health facility may not interfere with the physician-patient relationship by restricting or forbidding the use of amygdalin (laetrile) when prescribed or administered by a physician and requested by a patient unless the substance as prescribed or administered by the physician is found to be harmful by the State Medical Board in a hearing conducted under the provisions of AS 44.62 (Administrative Procedure Act).
