

Sickle cell disease

Deadline: Postmarked no later than **July 1, 2018**
Credit: 2 AAMA CEUs (gen/clin) **Code:** 133280

Directions: Determine the correct answer to each of the following, based on information derived from the article.

T F

- 1. The term *sickle cell disease* (SCD) is derived from the presence of white blood cells of an irregular shape that affect the small blood vessels of the human body.
- 2. Children with SCD should not be given penicillin because this drug increases the risk of stroke.
- 3. Patients with SCD at high risk for stroke may be required to have blood transfusions each month to reduce the stroke risk.
- 4. The laws of all American jurisdictions require newborns to be tested for SCD.
- 5. The increased detection of SCD in young children has been a contributing factor to an increased average life-span of individuals with SCD.
- 6. A transcranial Doppler is a diagnostic device that measures blood flow in the brain.
- 7. The survival rate for both pediatric and adult SCD patients has improved because of major breakthroughs in treatment options.
- 8. A sickle cell crisis is defined as an episode marked by severe pain that can last a few days or more than a week.
- 9. Adults with SCD who are undergoing a sickle cell crisis are sometimes mistakenly thought to be drug-seeking addicts by emergency department staff and are denied necessary treatment.
- 10. Sickle cell trait (SCT) is a more serious condition than SCD because of the greater amount of hemoglobin A associated with SCT.
- 11. The likelihood of a child having SCD or SCT is affected by whether one or both parents have SCD or SCT.
- 12. Patients with SCD are at risk for cirrhosis because of the large number of medications they must take to prevent the health problems associated with SCD.
- 13. More health care providers can treat adult SCD patients than pediatric SCD patients.

Electronic bonus! This test is available for an extended time* on the e-Learning Center at www.aama-ntl.org/learning.

- 14. Individuals with SCD should avoid locations with high oxygen levels.
- 15. Although there were significant risks in the transplant procedure, some patients who have undergone bone marrow transplantation have been cured of SCD.

Continuing education application

AAMA CEU Credit: You have two options for testing.

Option 1: Go to www.aama-ntl.org and click on e-Learning Center under Continuing Education. Pay for and take the test online.

Option 2: Complete the test and application on this page, and mail it to the address below. Enclose a check or money order payable to the AAMA.

The nonrefundable testing fee is \$20 (members) or \$30 (nonmembers). Credit will be awarded to those who achieve a score of at least 80 percent.

Last name

First name & middle initial

Address

City/State/ZIP

AAMA membership status: Member (\$20) Nonmember (\$30)

Members—AAMA ID number (*required*)

Nonmembers—Last four digits of Social Security number (*required*)

Date completed

Day phone

Fax

Email

Retain a photocopy of your payment and test for your files.

The AAMA does not keep copies on file after grading.

Send completed test application and fee to:

AAMA *CMA Today* CE Test
20 N. Wacker Dr., Ste. 1575
Chicago, IL 60606

Continuing education units (CEUs) are awarded based upon content, depth of article, learning outcomes, and length of time for completion per IACET (International Association for Continuing Education and Training) guidelines and criteria. IACET created the CEU for the purpose of providing a standard unit of measure to quantify continuing adult education. CEU value is awarded based upon the projected contact hours needed to complete the continuing education activity (e.g., 1 CEU equals 1 hour, or 1.5 CEUs equal 1.5 hours). *CMA Today* articles follow this standard for awarding CEU value. The \$20 or \$30 is a test processing fee. A \$25 administrative fee will be assessed for returned checks.

**Mail-in test deadlines are maintained for administrative purposes. Electronic test deadlines on the e-Learning Center will vary. The AAMA reserves the right to remove any course at any time.*
