

2025 Medical Assisting Educator Compensation and Benefits Report

Of survey respondents who identified primarily as medical assisting educators, about 82% of medical assisting educators surveyed work full time, with the other 18% teaching part time. The majority (79%) of full-time educators receive their compensation in the form of an annual salary, while around 21% are paid hourly.

Compensation

On average, full-time medical assisting educators reported earning an annual gross salary of \$59,537, with about 47% reporting that they earn at least \$65,000 annually and nearly 30% reporting more than \$75,000 in annual earnings. The breakdown of educators' salaries by years of experience is shown in Table 5.

Employment Benefits

Insurance

About 72% of full-time educators receive major medical coverage and 83% receive dental insurance. Accidental death, disability, and vision were over 60% rates. Rates of coverage for full-time educators are listed in Figure 5.

AAMA Membership and Conference

When asked whether employers offer to help pay for various AAMA expenses, 40% of full-time educators who are AAMA members reported full payment of membership dues, with 47% reporting full payment of conference registration fees. Roughly 37% reported full payment of travel and lodging for the AAMA Annual Conference (Figure 6).

Table 5. Average full-time educator salary by years of experience (\$)

Experience	Salary
0–2 years	45,500
3–5 years	59,672
6–9 years	57,414
10–15 years	61,800
16+ years	62,149
Overall	59,537
